Peak Vascular Medical Team Leadership

Dr. Sheryl Neelankavil is a seasoned physician, executive and digital health investor. She holds a patent for non-emergent blood transfusion protocols in mobile settings, which she is contributing to our marketplace.

Dr. Aaron Weinberg is triple boarded in Pulmonary, Critical Care and Internal Medicine. Dr. Weinberg is an experienced principal investigator, author, thought leader, program builder, and physician scientist. Prior to joining Carbon Health, Dr. Weinberg was an Assistant Professor of Medicine in the Division of Pulmonary & Critical Care at Cedars-Sinai Medical Center in Los Angeles and the co-founder & associate director of the VTE/Pulmonary Vascular Disease & Research Program.

Dr. Saba Haq has over 20 years of clinical experience in Emergency Medicine from Level 1 Trauma Centers to rural hospitals across the country. She has deeply contributed to healthcare startups like Crossover Health and Carbon Health, along with medical group leadership for VC backed startups from post acute care to mental health.

Peak Midwest

Dr. David L. Sommerfeld is a distinguished nephrologist based in Springfield, Missouri. He earned his medical degree from the University of Kansas School of Medicine in 1987 and has since accumulated over 37 years of experience in the field of nephrology. Dr. Sommerfeld is affiliated with several hospitals, including Cox Medical Centers, Mercy Hospital Springfield, and Citizens Memorial Hospital.

Dr. Sommerfeld is known for his expertise in treating chronic kidney disease and acute kidney failure. He is a part of Springfield Nephrology Associates, where he collaborates with other specialists to provide comprehensive care to his patients. His dedication to patient care is reflected in his high patient satisfaction ratings and his commitment to offering telehealth services.

Outside of his professional life, Dr. Sommerfeld is actively involved in the medical community and continues to contribute to advancements in nephrology through research and education. His compassionate approach and extensive knowledge make him a highly respected figure in the medical field.
